

European Day of
Action

Stop The Bank Bailout

RISE UP AGAINST
SOCIAALLY UNJUST TAXES,
PENSION & INCOME LEVIES ETC.
CUTS IN JOBS, PAY, HOURS,
PENSION BENEFITS, MEDICAL
SERVICES, EDUCATION,
SOCIAL WELFARE

**SATURDAY 16TH
MAY
2:30P.M.
CENTRAL BANK
DAME STREET**

The government is determined to make ordinary workers pay for the financial crisis. Our incomes have been attacked, huge numbers of jobs have been lost or are under threat and the public services that we rely on are being cut back. All so that the property developers and bankers who caused this crisis can be bailed out.

€24 billion of our money is to be used to bail out the banks. This is money that is needed for investment in jobs and public services. It is time for all workers—private and public sector—and the unemployed to stand together and demand that the rich who caused this crisis are the ones made to pay for it. Our unions must take a stronger stance.

16th May is a day of action called by the European Trade Union Congress under the banner 'Fight The Crisis. Put People First.' So get involved. Let's unite with workers across Europe and use the opportunity to begin to build a fightback in Ireland.

**Stop the Bail Out of Banks
No levies on PAYE workers
For a stimulus package to
create jobs**

Organised by Grassroots Unite, an alliance of rank and file trade union activists, initiated by SIPTU Education Branch.
